

Future Research Includes:

National Ecological Observatory Network: Core Site

30 year commitment:
energy and chemical
pulse, animals, plants,
educational outreach,
and data access to
public

- *Fundamental Instrument Unit (FIU)*
- *Construction start January 2013*

Fundamental Instrument Unit (FIU)

Towers and Soil

Drivers: Temp, Humidity, Wind, PPT, Insolation, CO₂, O₃, NO_x

Responses: fluxes of C, H₂O, energy
